The Boshell Diabetes and Metabolic Diseases Research Program at Auburn University is dedicated to improving the lives of all people with diabetes through world-class basic science investigation into the etiology and treatment of diabetes and other metabolic diseases.

The 7th annual Research Day, on Friday, February 28, 2014, brings together experts from around the United States to present current topics related to diabetes and the role of obesity in its development. The meeting will be highlighted by research presentations throughout the day and evening.

Don’t miss this opportunity to attend and participate in this exciting event. Poster and oral presentation submissions are being accepted.

Registration fee is $75 for Boshell program members and $125 for nonmembers. Students and postdoctoral fellows may attend at no cost.
Plenary Lecture:

Dr. Thomas Gettys  
Excellence Professor, Pennington Biomedical Research Center

Banquet Speaker:

Dr. Neil E. Schaffner  
Endocrinologist, Primary Medicine Associates
